Saturday, June 17, for Grades 2, 3, 4, 5, 6, 7. Charles R. Bishop Hall, 8:30 A. M.

Friday, June 16 and Saturday, June 17, for Grade 8, Charles R. Bishop Hall, 8:30 A. M.

For Freshman Class—Bingham Hall, 8:30 A. M.

Four men were injured by an explosion at the plant of the Tidewater Oil Company at Bayonne, N. J. A contract for 200 motor trucks was received from the French government by the White Motor Company.

DISMISS CHARGES AGAINST CITY'S PURCHASE AGENT

Charges preferred against H. E. Wescott, city purchasing agent, were dismissed by the board of supervisors last night on recommendation of the finance committee, appointed to investigate them. They reported that they had heard evidence and argument from J. H. Hakuole, the discharged assistant to Wescott, who preferred the charges, and from Wescott himself, and that the charges were not sustained.

At the last meeting of the committee, Hakuole, after failing to substantiate his other charges, declared that he would have first-hand evidence of Wescott's obscene remarks to telephone girls within a few days and asked that a meeting of the committee be called when he was ready with his witnesses. Chairman Logan agreed.

Hakuole has not yet produced his witnesses and admitted to Logan yesterday that he was not able to get them. "That clears Wescott then," Logan declared, and the report was made accordingly.

Supervisor Arnold at first opposed the adoption of the report of the committee last night, claiming that one of the charges at least was technically correct and no action should be taken until there was a full meeting of the board.

MAKE OAHU'S ROADS AS GOOD AS SCENERY. URGES THIS VISITOR

"Why spoil the ship for a h'porth of tar?" Such was the comment made by J. Howard, a visitor from Sydney, N. S. W., when speaking of the auto trip around this island. "The wonderful scenic trip is only marred by the deplorable condition of the road for the first 30 miles (via the Pal), but after that, with the excellent roadbed and the charming and fascinating stretch for the remaining 90 miles, the excursion will ever remain with us as one of the attractions of the Isles of Peace."

Mr. Howard left by this morning's Makua, upon which ship he arrived last month, accompanied by Mrs. and Miss Howard. They have been guests at the Moana.

IF YOU SUFFER FROM BACKACHE, LUMBAGO, KIDNEYS OR RHEUMATISM, TAKE HOT WATER AND 'ANURIC'

American men and women must guard constantly against kidney trouble, because we eat too much and all our food is rich. Our blood is filled with uric acid which the kidneys strive to filter out, they weaken from overwork, become sluggish; the eliminative tissues clog and the result is kidney trouble, bladder weakness and a general decline in health.

When your kidneys feel like lumps of lead, when your back hurts or the urine is cloudy, full of sediment, or you are obliged to seek relief two or three times during the night, when you suffer with sick headache or dizzy, nervous spells, acid stomach, or you have rheumatism when the weather is bad, get from your druggist—"ANURIC." Because of uric acid in overabundance in the system,

backache, pains here and there, rheumatism, most, gravel, neuralgia and sciatica result. It was Dr. Pierce who discovered a new agent, called "Anuric," which will throw out and eliminate this uric acid from the system. Dr. Pierce believes "Anuric" to be 37 times more potent than lithia, and consequently you need no longer fear muscular or articular rheumatism or gout, or many other diseases which are dependent on an accumulation of uric acid within the body. Send Dr. Pierce, Invalids' Hotel, Buffalo, N. Y., 10c for trial package or \$1.00 for full treatment "Anuric."

Dr. Pierce's reputation is back of this medicine and you know that his "Pleasant Pellets" for the liver and his "Favorite Prescription" for the kidneys of women have had a splendid reputation for the past 50 years.—Adv.

WITHDRAW PROTESTS AGAINST KALAKAUA AVENUE IMPROVEMENTS

All protests filed, last January, against the improvement of Kalakaua avenue, unless the work was done with blitheness, are expected to be withdrawn before the next meeting of the supervisors, and George M. Collins, city engineer, is planning on getting the work started before many weeks have passed. Formal withdrawal of the protest of the Territorial Hotel Company was read at the board meeting last night.

A letter written by E. W. Sutton, the company's attorney, it was stated, that it is the belief of the writer that the protests of the Lilipukalani Trust, Bruce Cartwright trustee, and the Guardian Trust Company will be withdrawn.

CHANGE DUTIES OF PURCHASING AGENT

Much discussed amendments to the purchasing agent ordinance passed last night at last night's meeting of the supervisors. As soon as they go into effect department heads will do their own buying from schedules furnished by the purchasing agent, without the necessity of going to him with a requisition for an order. Within 48 hours after making a purchase they must send a duplicate order to the purchasing agent, according to the terms of the amendment ordinance. Purchases made in violation of the contracts for materials and supplies made by the city are to be reported by the purchasing agent to the board.

POLICE REPORT SHOWS OVER 400 ARRESTS MADE

The essence of the police report for the city and county of Honolulu for the last month prepared by Deputy Sheriff Julius W. Asch, is that there were 404 arrests, 299 convictions and \$276.90 collected in fines, costs and forfeitures.

In the district of Honolulu there were 349 arrests and 2198 collected. In May, 1915, the number of arrests was less but the amount of fines was larger.

Of those convicted last month 65 were Hawaiian, 50 Chinese, 54 Japanese, 3 Portuguese and 122 others.

Beginning at 9 o'clock this morning the Hawaiian Band played at Punahou for rehearsal for the Punahou pageant. The band will play at 7:30 to night in the Hawaiian Board of Missions' memorial building, King street.

CITY AFFAIRS AND SUPERVISOR NOTES

Last night's meeting adjourned early—before 9 o'clock.

The mayor and Supervisors Horner and Ahia were absent. Supervisor Logan took the chair.

Permits to sell milk were granted to the following: J. Shimada, Juan Simon, S. Shimizu, F. Talmuch, S. Hirata and D. Yamahita.

Wm. H. Theone was appointed poundmaster for Punahou to fill the vacancy caused by the death of Fred Wright. There is no salary attached to the position.

The Honolulu School for Boys invited the mayor and supervisors to the graduation exercises to be held tomorrow afternoon in a communication read last night.

Request of nine families on Beach road for a better water supply was referred to the water committee. A petition filed by the nine declared that they had appealed to the manager of the water works several times and he had declared he could do nothing for lack of funds.

The next meeting will be Monday noon. Nothing but the payroll is to come before the meeting. This was decided by vote after a long discussion. A motion to hold the meeting Monday night was defeated, even after Supervisors Arnold and Larsen declared they could not be present at a noon meeting.

The Island Sight Seeing Company was granted permission to stand its auto business on Beach street between King and Merchants streets after some slight opposition. The company, as its name implies, intends to operate a number of sight-seeing busses. Later it plans to maintain a regular schedule around the island.

Report of the emergency hospital physician for May filed last night shows 156 patients treated during the month, 73 ambulance calls, 4 autopsies and 4 commitments to the insane asylum. Of the 73 ambulance calls 24 were emergency, 22 private calls for which \$5 each is being charged this month and 25 calls at the request of the city and county physician. The Board of Health had two patients transported in the ambulance and 7 patients were taken to Leahi Home in it.

Request of John H. Wilson for permission to use part of Nuanuan road at the end of the car line and of the Territorial Hotel Company to use part of Kalakaua avenue and of Kalulani avenue was referred to the city engineer with power to act. Wilson declares that if he can get permission to use a portion of the roadway he can save much money on the cost of transportation of road material to the Dowsett tract, as the Rapid Transit company will carry it to the end of the car line for him. The hotel company want to use the two avenues in connection with the work on the Moana hotel additions.

The Japanese steamer Tansan Maru, Boston for Manchester, was towed into Berehaven, Ireland, with her main shaft broken.
